# Interaction Record Analysis

# Daily Interaction Records

- An outlier record of **53** interactions on the first day
- Average record in the rest of days is **4.5** interactions, less than a hypothetical target of **6.5**.
- May 30<sup>th</sup>, June 3<sup>rd</sup>, 6<sup>th</sup> days with most interactions.

## Time of Day Interactions

**Exclude Outlier**

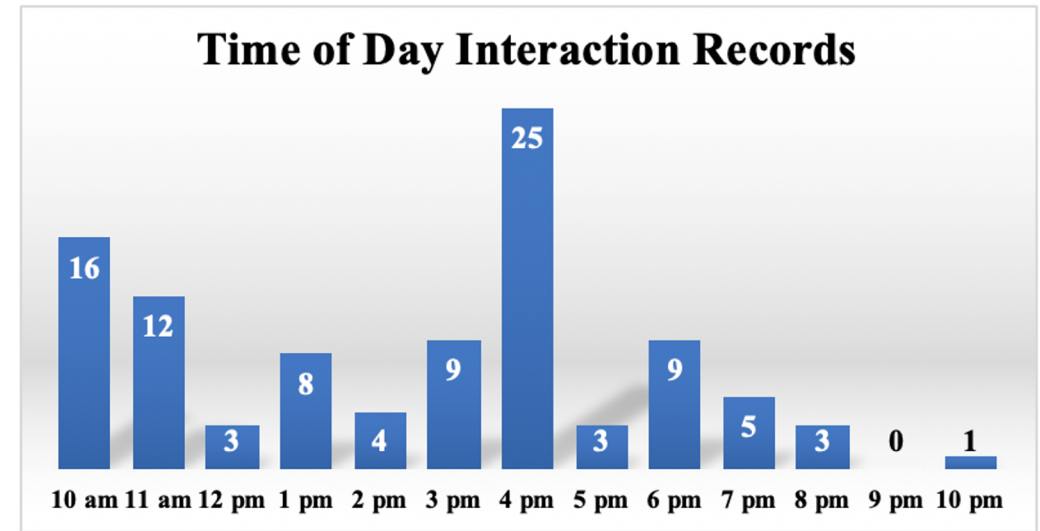

- 4 pm was the peak time of interactions.
- More interactions in the morning.  
Few interactions after 6 pm.

# Design Popularity Comparison

# Clustering

**Here,**

What Vans Can Learn From the Analysis About Clustering.

- Checkerboard not as popular as other style right now.
  - Classic Vans design -- but not as **personalized**
- Colorful based shoes are **personality.**
- Simple color based shoes can design without limitation.
- As the target customers of Vans are **personality,** pop pattern is the most attractive style.

# WHY

- The target group of Vans event is the **young generation**. They prefer iPhone to Android phones.
